OUR STRTEDAY NUMBER.

On Wednesday, Oct. 10th, THE EVENING Works will issue a special anniversary number. Effort will be made to produce a worthy capstone to a remarkable journalistic first

It has fallen to the lot of few newspaper ventures to make such a record during a twelvemonth as that of THE EVENING WORLD, And very appropriately its anniversary numher will aim to be the greatest penny paper ever issued in this or any other town.

Of course, you'll be present with several hundred thousand other people at our birthday party.

GOV. HILL AND LABOR.

Gov. Hill will address the labor organizations of the City at Cooper Union this evening. The attendance will doubtless be large. The workingmen of New York have intelligence enough to understand their true interests, and housety enough to support those public officers who are the real friends of the cause of labor.

During his four years in the Executive of. fice, Gov. Hill has shown himself to be the earnest advocate of all measures calculated to benefit the laboring classes. Time and again he has interposed his veto to prevent encroachments on the natural rights of the people. His course in this respect has been firm and consistent. He is pronounced a demagogue by his political opponents simply because his official action has been guided by broad, lib. eral views, and by an honest determination not to allow prejudice, clamor or misrepresentation to swerve him from the strict line of equal justice to all men, rich and poor, powerful or friendless.

It would be strangely inconsistent if the workingmen of the State did not stand stoutly by the Governor whose enemies seek to de feat him because of his friendliness to the laborer. It is not necessary to recall the inwhich that friendlines shown. The recommendations and vetoes of four years make up the record. But it is well for workingmen to remember that the crusade of Wall street gamblers against David B. Hum is mandy due to his refusal to allow the People's Half Holiday lay to be repealed without a fair trial. Nor should it be forgotten that at the extra legislative session Gov. HILL urged the reconstruction of the Conspiracy laws on the Republican majority, so that they might no longer bear unjustly on labor combinations while offering no interference with the conspiracies of capital.

It would be well if every workingman in the city could be present at Cooper Union to-night.

GALLANT JOURNALISTS.

The affliction that has fallen on Jacksonville has at least served to demonstrate the devotion of a set of young men whose services to the public in the discharge of their duties are seldom properly appreciated. The correspondents and reporters of the press are in their way heroes whose courage and fidelity are constantly put to the test. In their ordinary daily occupation they are called upon to face perils from which many bold men would shrink, and seldom, if ever, do they hesitate to confront the danger. They are assigned to follow up and detect crime: to visit spots where pestilence has suddenly appeared; to interview ruffians and murderers, such as the Hatfield gang, and to do other work in which they take their lives in their hands. They never fail in their duty and people who read the result of their tasks in the daily journals little think of the risk at which the news has been gathered,

At Jacksonville these faithful young men have displayed singular bravery and devotion. Some of them have given up their lives to their duty. Others, as in the case of the gallant correspondent of THE WORLD, have taken the disease and happily recovered. In every case the courage and selfabnegation of these useful journalists are remarkable, and they should be duly honored by the people.

Hurrah for the feather-workers! The girls have won the day and are to go back to work at the old rates, without submitting to a

25 per cent. reduction in their too scanty THAT KITTEN COMES TO US. wages. Mrs. PALMER and Mrs. JOSEPHINI SHAW LOWELL stood nobly by the "feather. weights" in their struggle against injustice. and deserve credit for their humanity.

THE NOVEL SCULLING RACE.

The novel sport of a roadscullers' race at Madison Square Garden proves a great attraction, mainly owing to the reputation of the oarmen engaged in the contest. With such men as TERMER, GAUDAUR, PLAISTED, BUBEAR, O'CONNOR, LEE, WALLACE ROS and the rest in the lists there can be no lack of curiosity and interest in the event.

It is a singular sight to see these men, each of whom can drive a shell through the water with steam-engine speed, pulling away at a roadsculling machine with as much grace and ease as if they sat in their boats. Considerable skill, as well as muscle and endurance, is required to manage these machines successfully and to make good time. The scores for the first six bours prove how well the champion oarsmen are performing their task. The race is worth witness. ing, and the large number of spectators gives evidence that it is appreciated by the people. It is of vastly greater interest than a six days' walking match.

A PRIZE CAT.

THE EVENING WORLD highly appreciates the compliment paid it at the Anti-Poverty Fair, where it was voted the most popular evening newspaper in the city. We also receive with full appreciation the present of an office cat, awarded as a prize to the winner in the pleasant contest. The donors may rest assured that Pussy will find a happy home and will become the office pet,

There has been some talk of an office cat owned by one of our contemporaries. But that animal is known to be sly, stealthy and treacherous, with a habit of unsheathing its sharp claws suddenly from their soft, yelvety covering and tearing the flesh of its friends. Onr office cat will be trained in a better manner. It will be gentle, bind and true to all who deserve its friendship. But woe to any "rats" that may come in its

The County Democrats have nominated Mr. HEWITT for Mayor. They have not completed their ticket, it being understood that Mr. Hewirr insists upon passing on the rest of the nominations as a condition of his acceptance, The Labor parties have nominated Mr. JAMES J. COOGAN as their candidate. Mr. Coogan is a business man, a large employer of labor and a popular man in all the labor organizations. With HUGH J. GRANT, a model Sheriff; ABRAM S. HEWITT, the present Mayor; JAMES J. Coogan, a leading advocate of the Labor party, and a vet-to-be-named Republican in the field, every one ought to be able to select

Miss HENRIETTE MARKSTEIN'S free entertainment for workingwomen yesterday afternoon was a great success. The attendance was so large that many late comers were unable to obtain entrance to Cartier's Hall, at 80 Fifth avenue, where the entertainment was held. Miss Markstein should, if possible, secure a larger hall.

the sort of Mayor he prefers.

There is a rumor that Mr. BLAINE is o take up again the profession of journalism. That is good. Mr. BLAINE is a capable journalist, and hence his life ought not to be wasted in a political office. Better be an editor, Mr. BLAINE, than Premier or President. It is a more honorable position.

OUR AUTOGRAPH COLLECTION.

WORLDLINGS.

The wealthiest living Welshman is said to be G. V. Taylor, of Deamguature, Wales. On his Austrian estate, which he sold recently, he realized the enormous sum of \$21,000,000.

The coin collection owned by M. R. T. Graham, of Pine Creek Station, Pa., is considered the most omplete in existence in this country. It comprises ,000, besides duplicates, and was begun in 1840.

W. L. Bancroft, Superintendent of the Railway Mail Service, bears a striking resemplance to the late Vice-President Hendricks. So marked was the esemblance that during the 84 campaign Mr. Bancroft was frequently mistaken for the Vice

Statistics lately published in England show that the world has 700 Crossuses worth \$5,000,000 or over, of whom 200 reside in England, 100 in the inited States, 100 in Germany, 75 in France, 50 in Russia, 50 in India and 125 in other countries.

A cow known as * Shadeland Maud " that died in Crawford County, Pa., recently was widely known as a wonderful milker. As a six-year-old, in 1887, she gave in one day 113 pounds of milk and in one week 730 pounds. In one month of that year her yield of milk amounted to 5,033 pounds, more than a ton and a half.

SO THE VOTERS DECIDED AT THE ANTI-POVERTY PAIR

The Evening World " Heads the List for Popularity-Pussy Gets a Warm Welcome, Has Its Picture Printed and Will Wear a Bright New Collar-The Fair

It is THE EVENING WORLD'S est.

This was decided on Saturday night when the Anti-Poverty Fair and its various contests closed their three weeks' course at the Madison Square Garden. THE EVENING WORLD kept its lead very constantly in the voting for the most popular evening newspaper, and it ended thirty-four votes better than its nearest rival.

The prize is a pretty little black feline warranted to take kindly to the vicissitudes of journalistic life. It comes to the office as a most welcome addition to the staff, though the paper has never experienced the actual need of an office cat. The animal's own manifestations of delight when it learned to what

THE NEW ADDITION TO OUR STAFF. tender mercies its future was to be consigned are described as something marvellous in the way of cestasy, though the delight itself, under the circumstances, was little to be

wondered at.

The cat comes from the residence of Mrs.
Butler, at 156 West Thirty-fifth street, where
the earlier period of its existence has been
passed. Its picture as presented herewith was passed. Its picture as presented herewith was taken under disadvantageous circumstances. Later, when the feline emotions have been calmed down and the excitement of the change from private to public life is over, another portraiture may be produced.

A handsome silver collar, duly inscribed, will be placed upon the neck of the prize cat, and it will be dedicated to its new field of usefulness.

The other voting contests at the fair also ended amid much interest and lively compensated.

ended amid much interest and lively competition. If the results count in the fall elections Mr. Cowdrey will be the next President by a comfortable plurality, while Miller will be Governor and James J. Coogan will occupy the Mayor's chair. The United Labor organization turned ont as the most popular

cupy the Mayor's chair. The United Labor organization turned out as the most popular party according to the fair's voting.

In the contests for chief popularity Dr. McGlynn won among the clergymen; John McMackin among the United Labor men; Sylvester Malone as a member of the Anti-Poverty Society: W. Martin as the most popular of Irishmen; Nellie Sheridant most popular Concordia Chorus girl; Miss Margaret Byrnes, most popular member of the Working, most popular member of the Working. lar Concordia Chorus girl; Miss Margaret Byrnes, most popular member of the Working-woman's Society; Father Malone, most popular of priests; J. J. Broslin, most popular of bachelors; H. O'Neill, most popular voung man; Mrs. James Ityan, most popular lady worker at one table.

The Leo Club, of the Twenty-first Ward, was voted the palm for popularity in basebail matters.

Dr. Burtsell was voted the best friend of Dr. McGlynn, and Georgie, son of John

Dr. McGlynn, and Georgie, son of John Moran, came out first among the fine babies. The fair continued to go with a boom up

to the very last moment, and more than half the people who worked or visited at the Gar-den are sorry that it is over. THE EVENING WORLD makes its best bow in acknowledgment for the prize cat.

THERE IS STILL FEVER.

But Lowering Temperature Threatens in Its Very Stronghold.

ISPECIAL TO THE EVENING WORLD. JACKSONVILLE, Fla., Oct. 8 .- With lower temperature and other favorable atmospheric conditions, the fever abates its fury,

The number of new cases and deaths reported daily grows less and, although many are still succumbing to Yellow Jack's attack, the prospect of an early raising c the siege robs the situation of much of its terror.

It is in the suburbs that the fever is work.

with the fever with no food in the house. In some cases they have had no medical attendance for days after being attacked.

The total of deaths was swelled vesterday to 291, and 33 new cases were added to the 3,124 previously reported. At the present writing one additional victim and three new cases have been reported.

Among yesterday's dead were Edwin Martin, managing editor of the Timer-Union, who stood gallantly at his post until the fever claimed him.

claimed him.

Charles L. De Forrest, a telegraphic operator from Detroit, who had successfully defied Yellow Jack in Memphis and Mobile, was another of those who died.

Union Clambake Club.

The Union Clambake Ciub, composed of mem-bers of Typographical Union No. 6, held its third annual clambake at New Dorp, S. I., yesterday, It was a very enjoyable affair.

The athletic games resulted as follows: 100 yards dash, won by J. McGuire: half-mile heel-and-toe dash, won by J. McGuire; half-mie heel-and-toe walk, by Louis Rheinheimer; mile go-as-you-please, Howard Horton; sack race, W. D. Moran; fat men's race, Mr. Couch; fug-oi-war, J. Bergin; quotis, C. S. Arers; baseball game, Married Men vs. Single, won by Single Men, 15 to S.

The journal was a flux specimen of the art, and reflected great credit on the committee, Fred Haslam and John Clark.

Local News Condensed.

Capt. Rellly wants an owner for a Spanish bill that had been found on the street by one of his officers to-day. omeers to-day, of 21 Batavia street, walked overboard from Pier 25, East River, at 3 o'clock this morning, out was rescued by Policeman King, of the steamboat squad.

Oscar Dunnar, forty-six years old, was found dead in the longing-room of the East Twenty-second street station-house at 5.30 o'clock this morning. Death is believed to be due to alcoholism.

Among Hotel Guests. J. N. Beicher, of Philadelphia, and G. W. Spaulding, of Boston, are registered at the Gilsey

IN "LIGHTNING CHARLIE'S HONOR. Enlogistic Resolutions Presented to Capt

McDennell's Widow. A handsomely engraved and richly framed set of resolutions was presented in Inspector Steer's office this morning, to the widow of the late Capt. Charles McDonnell.

After "Lightning Charlie" was found dead in his bed in his Prince street stationhouse, a meeting of the Superintendent, Inspectors and Captains was held, and resolu tions were adopted expressive of the high regard and esteem entertained of the ability, efficiency and worthiness of Capt. McDonnell by his associates land their deep sorrow at his

by his associates, and their deep sorrow at his untimely death.

At 10 o'clock A. M. to-day a delegation from the Eighth Freeinct, headed by Capt. Thompson and Sergis Riley and Allen, appeared at Police Headquarters, and to them Inspector Steers submitted the massively framed resolutions, with a request that they would present them to Widow McDonnell without any formality whetever.

sent them to whole McDonnell without any formality whatever.

The widow was deeply affected at this splendid tribute to the worth of her dead captain-husband, and they will adorn the walls in the King street homestead.

FEATHER GIRLS VICTORIOUS.

Mr. Counfeld Makes An Unconditional Surrender To His Employees.

The Cohnfeld Company has made an unconditional surrender to the feather-workers, and the young women employed by it returned to work this morning. Mr. Cohnfeld has promised to

pay the same wages as other manufacturers when a uniform scale of wages is established, which will be in about a fortnight.

Mrs. Lowell will preside at a meeting of ladies to morrow morning at 11 o'clock, at 28 Lafayette place, for the purpose of aiding the young women who have been out on strike.

MANY WOULD NOT VOTE.

Resolution by the Central Labor Union for Honoring the Dead Anarchists.

A Committee of five of the Central Labor Union is empowered to co-operate with the German Federated Trades in getting up an anniversary demonstration in memory of the Chi-cago Anarchists on Nov. 10. Twenty-one delegates were excused from voting on the resolution for the appointment of the committee, which has the power to act or not, as they see fit.

In answer to Gustav Amberg's statement In answer to Gustav Amberg's statement to the Building Trades Section that he would employ whom he pleased on his new theatre and that he did not care for the Central Union or any other organized body of workingmen, the Arbitration Committee of the Central body has been instructed to inquire into the facts and see what can be done.

A general insetting of all workingmen in favor of the amendment of the conspiracy laws will be called at an early day under the auspices of the Central Union and the Central Executive Committee of the Troy Convention.

vention.

Notes in the Labor Field. The Clothing Trades Section meets to-night.

Keckuk, Ia., has adopted the eight-hour rule

All the glass factories in Onio and Pennsylvania have started up, with fair prospects before them. Progressive Painter's Union No. 1 will meet to-night in Clarendon Hall for the surpose of with-drawing from D. A. 49 and forming an open or-ganization.

The first of Miss Henrietta Markstein's free concerts for working women was given at Cartier Hall yesterday, and proved a success in every particular. The second concert will take place next Suniar.

day.

Frank K. Foster writes to his paper, the Labor Leader, of Boston, that organized labor in Indiana is opposed to Gen. Harrison because of his action in the railroad strike in 1877, his opposition to labor reform while in the United States Sonate and his record generally upon all labor measures. A large manufactory in this city, where nearly three thousand persons of all ages and both sexes are employed, is flooded with Republican high-tariff literature, and every voter in the catablishment is given to understand that the bosses want him to vote that way. The firm is a member of a trace combination or semi-trust arrangement, and needs high tariff to swell the profits.

LATE NEWPORT JOTTINGS.

THAT - SOCIAL - CONUNDRUM.

EVERYBODY SEEMS TO BE WRITING ABOUT THE NOTABLE QUESTION.

Is Love a Failure?" Held to Be the Real Question-A "Celibate" Who Thinks that All Marriages Should Be Those of Convenience - The Rule of Three for People Contemplating Matrimony.

To the Editor of The Forning World : There is no reason why marriage should be failure if the contracting parties would thoroughly observe what they promise when oining hands and hearts in wedlock. Everything is a failure that is not properly carried

Those who claim that marriage is a failure are, I think, failures themselves, Where marriage is a failure it is their own fault. One or both are to blame, generally both. Married people who are unhappy should make new rules and observe them. Let them analyze their difficulties and find out where the trouble lies and try and rectify it at

the trouble lies and try and rectify it at once.

If they are poor, that is no reason why they should not be devoted to each other. Very often poor people become rich. If they are poor let the husband fight shy of the rumshop, and the wife fight shy of sealskin sacques and French millinery.

If a woman wishes, she can always look well and presentable without spending half her husband's salary for milliners' inery. Let her keep her rooms and herself neat and tidy, and her husband will be all the more anxious to spend his evenings at home. tidy, and her husband will be all the more anxious to spend his evenings at home.

Married people should avoid living with relatives, avoid as much as possible visiting and gossiping with neighbors; and above all things, do not disrespect each other.

I am married six years, am blessed with three nice children and I am poor; but my married life is very happy.

Deforest Lee Spices.

Pineapple street Brocklyn.

Pineapple street, Brooklyn

A Fallure Without Love.

To the Editor of The Evenine World:

I think the question of marriage as a failure might well hinge upon another, "Is Love a Failure?" for love with marriage can never

be a failure. How many girls seek love, or are moved by it, instead of a desire to marry? And how often do we hear the question, immediately atter marriage, among the bride's friends: "Did she do well?"

"Did she do well?"

How do well? In marrying a man of worth, industry, intellect—a man who will love, honor and respect her? Ah, no; but did she do well in a pecuniary point of view; did she marry money? And it must be trankly admitted that many a girl has and will still turn from a man of intellectual or honorable worth to the man who can give her the finest house and the costliest dresses.

The "girl of the period" talks only of "style." A man without style has little to recommend him in her eyes, and she can feel no affection for him.

feel no affection for him.

And, on the other hand, it may be as truly said that an honorable man, poor in the world's goods, will even deny himself marriage, rather than ask a girl to live humbly or to do a share of household work. Is it not true that a girl will make any sac-rifice of love in order to live "in style," any sacrifice of love in order to be the envy of her associates?

And is it not equally true that a man will marry the rich one whom he does not love, in order to gratify his desire for better living?

Marriage will always be a failure when love goes not with it.

AN UNWILLING BACHELOR.

Categorically Discussed.

to the Editor of The Evening World: When people marry for love the husband thinks he marries an angel, whose feet are too good to rest on God's earth. He soon learns that she cats and drinks like other human beings, and he is disappointed in consequence. She thinks she is marrying a god, but shortly after marriage discovers that his brilliant conversation is, to her, monottonous repetition. He takes no interest in Bridget's misdeeds shrugs his shoulders at Gretchen's derelictions, and is more interested in THE EVENING WORLD'S market reports than in wifey's eternal back-ache, which she attributes to her marriage, and from which she suffered far more before she became a wife. Marriage is a failure unless it is a mariage de convénance. Then both dream not of affection. They marry because it suits them. In the course of years, having had none of these bickerings, which result upon disappointed love-matches, they have grown accustomed to each other, have no disagreeable recollections about each other, and when death comes to one, the other does not breathe a sigh of relief, but to the relict life becomes a vast desert. The good friend—the husband, the wife of many years—is gone! They fell in love with each other because they could learn each other's good qualities. They were not blinded by love. Mixed marriages as to religion must fail ninetv-nine times out of a hundred. Resume: Don't fall in love.

Marry sensibly.

Marry within your faith. nance. Then both dream not of affection.

Marry within your faith.

Newburg, Oct. 6. CELIBATE. A Success for Four Months

o the Editor of The Evening World: I have been married only four months, and ought to have some idea of the life, although it is a short length of time.

I can say I have been very happy and got long very nicely, always receiving kind and loving smiles from my wife. She is leading a happy life also, and we hope to continue so. I, for one, regard marriage a decided success. J. J. C., Brocklyn.

Wanted It Punctuated 'Young man," said the eminent statesman to

the reporter who had just submitted to him for revision a report of the eminent statesman's great speech on the political issues of the day, "you don't seem to understand punctuation. I shall have lo go all over this and punctuate it properly," "What is the matter with the punctuation?" in-quired the reposter, deferentially, "You haven't got the words applause,' wild entausissm" and 'loud and long-continued cheer-

ing ' inserted anywhere in this speech, air ?" thus dered the indignant statesman.

IF A DOCTOR ISN'T AT HAND.

Here Are Some Hints for Treating a Yellow-Fever Patient.

To the Editor of The World : Time's revolutions having again borne in their train of attendants, to portions of our fair land, the dread scourge, "el vomito" or yellow fever, visions of the past filt by in rapid succession and harrow up painful memories in the breasts of those who have had to mourn the bereavement of loved members of the household, by the ruthless potency of this implacable and irresistible foe to life. What member of the human family can take difference the rapid strides and wide expanding march of death, therein portrayed, without have

difference the rapid strides and wide expanding march of death, therein portrayed, without having his heart's emotions stirred to action by the strong desire to do something to assuage the woes of sufferers, who, though unknown, unseen and unsought for, strongly appeal te our sympathy, stirring up a universal throo that responsively beats with that "touch of nature that makes the whole world kin."

A portion of my life having been spent in the malarial regions of the torriu and tropical zones of our planet, I, as a physician, have been compelled to face and familiarize myself with the deadly fevers of Central America and the Southern States. In 1853 death by yellow fever robbed me of two of my household treasures. In 1854 I nearly succumbed to the then existing epidemic, and in 1858 I had a second visitation of the same fever. I, therefore, may say I have nursed, treated and lived through it. Unfortunately I lost by fire my manuscribt notes of cases that had invited close attention and special remark, and have only some brief data to refresh my memory. My experience is that no exact rule can be laid down for treatment of this yellow-fever scourge. An eminent professor of medicine once remarked that it required a man with mirsculous powers of perception and an apt reachness of resource to contend with its baffling, chameleon-like changes. It is generally conceded after extensive experience that the less medicine given the better, especially if, as but too often happens, the overworked doctor is unable to reach a patient in the inceptive stage of attack. Some families living in isolated locations fly to the indiscriminate, use of calomel. The experience of 1857 proved '* to be a most permicious chemical, as its depressarite 'vis medicaterix natural' in its effort to feator the strength and repair the nervous system. As a first help evacuate the bowels by gema, place the patient as soon as possible in gwarm bath, so as to incite and restore the fundions of the skin, carefully guarding aim or her, Afremoving from t place the patient as soon as possible in a warm bath, so as to incite and restore the rundfons of the skin, carefully guarding aim or her, Afremoving from the bath to the bed, from the kightest draught or chilling influence. In his tropica, where the time and the lemon are lakingnous, I have found the leaves and frait (aliced) steeped in the hot bath prior to using, or abost salutary benefit. Where a family medicine viest is at hand and the drugs are fresh and pure, cen grains each of calomel, quinine and Dover's powders, thoroughly mixed, may be given in ore dose to a strong robust person, or, it delicate, one-haif only, at time of going to bed. Keep away all noise or disturbing influences, and it sleep, natures best restorer, is induced do not is any noise be made to disturb it. Watchful, capiful nursing is indispensable. In this direction there was a time when every one pinned his faith upon colored attendance. The rioridglever, however, shows a large preponderance of me race as being stacked. The number of deaths resorded may be attributable to their lack of "will power" to resist disease. The best and most efficient nurses are the Crecken of Louisiana, who seem gifted with an intuitive, keen perception to de whatever is necessary. So maceb faith have I in their ability to combat this exterminating disease that were I in the South, and could produce—if attacked with yellow fever—one of these goog people, I would rather put my life in his nande tuan apply to any other source sterminating disease that were I in the South, and could procure—if attacked with yellow fever—one of these goed people, I would rather put my lite in his nanch tuan apply to any other source of medical aid. As a general thing, when I lived in New Orleans, they were their own doctors, and the medicins they employ in treating yellow fever will frequently cure after black romit has set in. Y had the good fortune to live in a Creolerfamily in the French district of New Orleans, and after much solicitation obtained the formula which I now give to the world for publication. Piprida's near proximity to New Orleans will permit of its fever-stricken sufferers readily procuring of the French herbai drug-stores the necessary botanic remedies, given in the following formula, to wit:

Take of white sugar enough to sweeten to taste; Lemons aliced, one or two;
Epsom salis, two large tablespoonfuls; Affeurs de Serreau, a small handini; Affeurs de Serreau, a small handini; Affeurs de Serreau, a small handini; Fenneterre, about three blades; boiling water, 34 to 36 f. oz.

Infuse. The dose is haif to a tumbler full of the cold infusion every 16, 20 or 30 minu es, according to the gravity of the case, and it is persistently given, even when rejected by the stomach, until the desired effect is produced. The treatment is continued three to four days.

I have given the above exactly as it was given to me, retaining the French nomenclature of the ingredients marked with a *. In the old English pharmacology, of which probably tut lew copies are extant, Feumeterre (Anglice, fumitory) is described as "very opening and refreshing," while feurs descreted as "very opening and refreshing," while feurs descreted as elder flowers, "a good diaphoretic." It is easy, therefore, to connect the Creole medicine with the efficacy which I can testify to.

Creole medicine with testify to.

1 offer these few remarks through your widely read journal in the hope that they may reach the hands of those unable to receive medical aid.

New York, Sept. 22.

Confidence in the Success of the Dush Rames of the Driving Club - Dempsey Given Odds in Betting If He Be the Unknown

to Meet Kilrain-Moffit, the Canadian

Is to Retire from Athetics. The Driving Club has decided to postpo the "dash" race trotting meeting from Set. urday, the 13th, to Monday, the 15th, The trotters will not then conflict with the runners at Jerome, and a great day should be the result. Alex. Newburger, one of the earliest advocates of the doing away with those long heat reces, assures the writer how certain he is of the coming trial at the

Jack Dempsey and Prof. Mike Domovan are to box after all. Their meeting is only off till after the election.

A bet of \$100 to \$90 on Dempsey was made uptown Saturday night, conditional on the Nonpaetl's being the unknown to meet Kil.

Join McDonald, a son of the second of Join C. Heenan and John L. Sullivan, ar-rived on the Umbria yesterday. He got a despatch from John L. last night, asking him to come to Chelsea Beach and see him.

boxers have not deformed ears is that they never made frequent Kelly and Murphy set-

Moffat, the great Canadian half-miler, will stay over for the N. four A.'s championships on Saturday. This is Moffat's last year in athletics. He says he is sorry he did not enter the Orange Athletic Club's games as well as the championships. It's a pity some some weather prophet couldn't have told him the rain would cause a postponement of the Orange A. C.'s games till day after to-morrow, and of the Association's games until Saturday.

The McAuliffe and Dacey battle is near at hand. These boxers will weigh and fight inside of three days. Dacey should win.

The Illustrated News people say they will meet the Police Gazette representatives at any hotel to-morrow, but will not make any agreement for the big fight in a saloon. It is possible arrangements will have to be completed for the battle between Kilrain and the Unknown in Canada.

There has been a big kick about it, but the Harlem Association could not be induced to see the wisdom of holding its Fall regatta earlier than Oct. 13. There will be a big fight on the Harlem on next Saturday, to decide the eight-oared championship. It is about conceded that the Metropolitans and Nonpareils are not in it, but the New York Athletic Club and the Dauntless crews are working with a will, and the struggle will be a hard one between these two.

INSANE DR. GREEN. A Man Arraigned at the Tombs Believed to

An insane man, who is believed to be Dr. William L. Green, of Iowa, who escaped from Dr. Barston's private insane asylum at Flushing, L. I., was arraigned at the Essex Market Court this morning.

He was found acting strangely in Division treet last night, and a few minut reached the station house a general alarm came from headquarters, calling upon the police to look for Dr. Green. The prisoner answered the description and he was accused of being Dr. Green. He denied it.

"I am Edward J. Goban. I am a doctor and journalist. My wife and children are stopping at Bath, L. I. I came here to buy a house," he said.

The man is below the medium height, has a white, stubby beard and blue eyes.

Representative labor men, including many delegates of the Central Labor Union, met in Claren-

don Hall last night and unanimously indorsed James J. Coogan as a candidate for Mayor of this city. Sernard David, of the Cigar-Makers' International Union, was Chairman of the sneeting. It is believed that the United Labor Party will slap indorse Mr. Coogan and thus make him the candidate of the labor classes. A mass-meeting has been called for Thursday night at Cooper Union to ratify the nomination.

No Hard Times.

said a monopolist, "I've been investigating of late on my own account and I find that the noor ate on my own account and I money now than they could fiftern or twenly years ago. Why, a locomotive can be purchased for \$10,000 now that would have cost \$30,000 twenty years ago."
